

ACUITY Newsletter - Winter 2009

RISK MANAGEMENT

Introduction

Welcome to the first issue of the Acuity Newsletter designed to keep you updated with our developments, solutions and activities. We'll keep the newsletters brief and focused and we hope that you find it of value. As always, we would welcome your feedback so please let us know your thoughts on the articles in this edition and any ideas of what you'd like to see in the future. Please also check out the [Resources](#) page on our website for datasheets and other content to download.

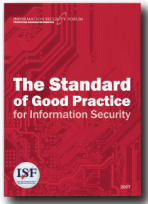

We wish you all a Merry Christmas and a very Happy New Year!

New Licensing Agreements

Acuity has signed new licensing agreements with the British Standards Institute (BSI) and the Information Security Forum (ISF) which extend the range of applications for our STREAM portfolio of products.

  <p>ISF Compliant Product</p>	<p>The Information Security Forum, the world's leading information security membership organisation has licensed Acuity to incorporate certain ISF intellectual property in STREAM.</p> <p>It has also designated STREAM as its first ISF compliant product.</p> <p>Both ISF Members and non-Members can use STREAM to measure compliance with the ISF's Standard of Good Practice (SoGP) and to implement the Forum's Information Risk Analysis Methodology (IRAM).</p>
<p>STREAM users can also make use of the ISF threat / incident list, benchmarking service and other intellectual property only available to ISF members or via an Intellectual Property Licensee such as Acuity.</p>	

	<p>Acuity has extended its licensing agreement with BSI to include the complete portfolio of standards available through BSI.</p> <p>In addition to the BS ISO/IEC 27001: 2005 and BS 25999 (business continuity) standards popular with STREAM users, this licensing extension allows Acuity to deliver STREAM compliance and risk management applications for</p> <ul style="list-style-type: none"> ◆ ISO 14001 (Environmental Management) ◆ OHSAS 18001 (Health & Safety Management) ◆ ISO 9001 (Quality Management)
<p>and further British and international standards that can be licensed through BSI.</p>	

Further Information

For further information on STREAM or our new licensing agreements please [contact us](#).

STREAM is an Enterprise integrated risk and assurance management solution which successfully addresses three, often conflicting priorities: support for rigorous risk and compliance management processes; ease and speed of deployment and use, and; valuable, business – focused reporting for senior management.
